Samashti International School

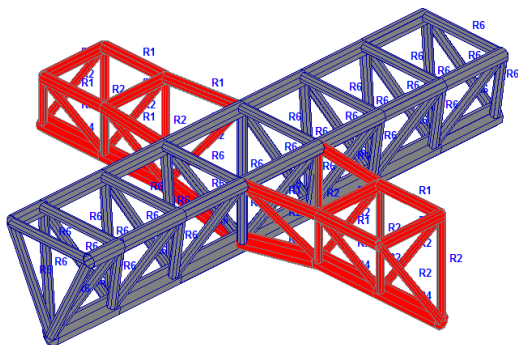

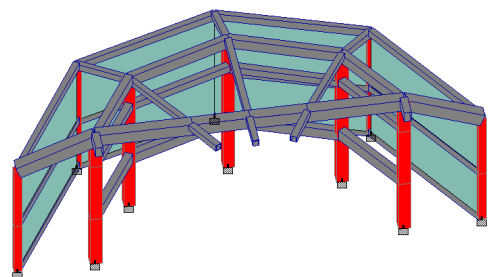

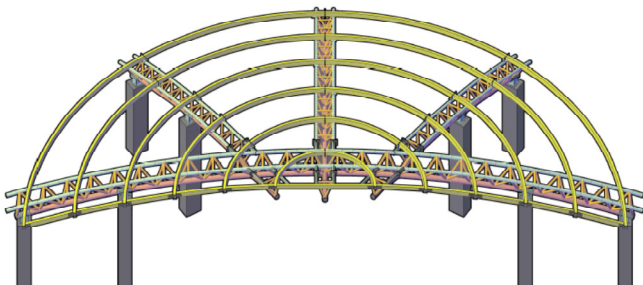

Library Block & Stage Structure

SIE Scope includes:

- Design of Library block Façade Support Structure
- Stage Roof Structure
- Retaining walls for Stage basement

Stage Structure is a doubly curved structure and carries Artificial Landscaping as Roof. Being 3D varying geometry, steel members required a finer detailing.

Date: 2018

Client: Samashti International School

Type: RCC & Structural Steel

Firm's Responsibilities: Structural Design
