

Scope of work includes Structural Design, Drawing and construction advice. The building is designed for G+3 Stories, 78' long and 28' wide.

Proposed Residence is located in very severe seismic zone i.e; Zone 5 to IS:1893. As seismic force governs, ductile detailing has been adopted while designing the structure.

Date: 2019

Client: Prof. K.D. Singh

Type: RCC Structure

Responsibilities: Structural Designs & Drawings
